

# RIMOWA

## SENIOR TECHNICAL DESIGNER (F/M/D)

Welcome to RIMOWA, the first German Maison of the LVMH Group. We are a global lifestyle brand with a mission to create the essential tools for a lifetime of travel. For more than 120 years, we've dedicated ourselves to develop unique products where function coexists with luxury, heritage with innovation, and craftsmanship with design.

At RIMOWA we believe that great ambitions demand resilient companions. It's why our tools are created with longevity in mind. Because the most meaningful journeys last more than a trip, they last a lifetime. Please join us to discover your own.

### APPLICATION:

We would kindly ask you to send your complete application documents, including your salary expectations and the earliest commencement date as PDF via Email to [people@rimowa.com](mailto:people@rimowa.com)

HR department  
Jaqueline Khalil

### WHAT WE HAVE TO OFFER:

RIMOWA has a unique opportunity for a senior technical designer to join the Development team, to support on the design and the development of all the future RIMOWA products.

For RIMOWA to keep writing its success story, the Development will perpetuate the premium quality and the innovation as key drivers to take up the company ambitious challenges in terms of product creativity.

The senior technical designer manages the project for major materials and components development: style, technical design, cost, homologation, project schedule and budget management.

### YOUR RESPONSIBILITIES:

- Designing products architectures proposals in partnership with the project managers
- Creation and validation of the component definition files and design justification files
- Definition of the components development schedule and budget in compliance with project objectives
- Management of the Request for Proposal process with Purchasing and suppliers
- Realization of the Make or Buy study with Purchasing and Engineering teams
- Management with Quality of the homologation process for materials and components
- Management of the task forces for problem solving with departments and suppliers involved
- Component project communication monitoring with Project manager, Purchasing, Engineering, Quality and suppliers

### PROFILE:

We would like to speak to professionals who possess an Engineering Degree in conjunction with at least 10 years' experience in mechanical design.

Furthermore, we seek:

- Experience in consumer goods technical design: automotive, travel, sports, electronic devices etc.
- Expertise required in major plastic and metal transformation and decoration processes
- Expertise appreciated in composites material and processes, foam, textile and leather transformation processes
- Effective communication skills, both verbally and in writing in German and English
- Operational skills in SolidWorks CAD considered a plus
- Creative, curious mindset to help develop and drive new concepts
